ALIGNMENT · MORALE RECOVERY

Momentum Rebuild

Score how fast you recover — and start the recovery now.

Team _____

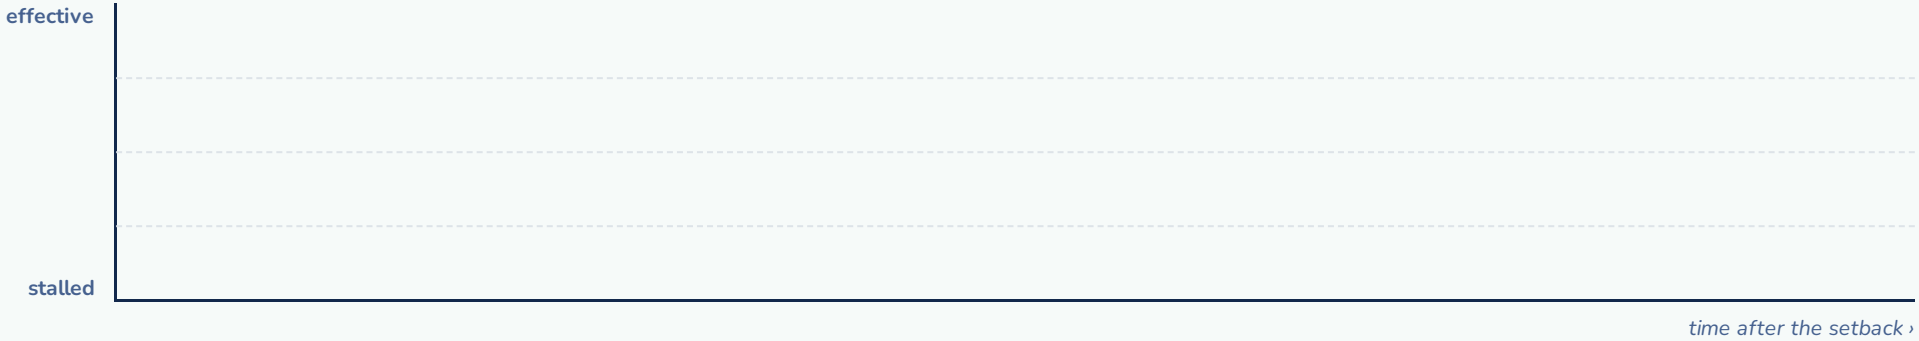

Date _____

1 · THE SETBACK (ONE SENTENCE — DON'T RELIVE IT)

_____

2 · THE RECOVERY CURVE — PLOT PAST SETBACKS: HOW FAST DID WE GET MOVING?

for each past setback, place a sticky: name · time to first action · time to normal. Steeper = faster.

3 · FASTER-RECOVERY TARGET

a specific time-to-first-action this time

_____

First real move within: _____ (vs last time: _____)

4 · THE FIRST ACTION — START THE RECOVERY NOW

real execution, not a meeting — small enough to start this week

Move: _____

Owner: _____ Starts: _____

Score recovery, not failure · name the setback in a sentence · target a faster curve · end on a first action.
