First Principles — Capture Sheet

For the facilitator — capture what the team stripped away and rebuilt, so the reveal survives the room.

TEAM / GROUP _____ FACILITATOR _____ DATE _____

How to use this: fill it in as the activity runs, not after. Write in the team's own words. Box 1 is the problem as first stated. Box 2 fills as you tag each claim. Box 3 is the reveal — the problem rebuilt from the truths only. Box 4 is the one next step the team owns.

1 · The problem the team brought — as first stated, before the activity, in the team's own words

2 · The claims, sorted — each claim and its tag: Truth · Assumption · Legacy · Solution. Most turn out not to be Truths.

CLAIM	TAG

3 · The rebuilt problem — rebuilt from the Truth cards only. Is it different from the problem in Box 1?

This is the reveal: the problem the team should have been solving all along.

4 · Carry it forward — the one new problem or option the team will act on first, with an owner and a date

Before you leave the room: photograph this sheet and send it to everyone who took part. An insight that isn't written down rarely survives the week.
